EXPERIENCE

Senior DevOps Engineer

June 2026 - Present

Syslify

UK, Remote

- Built GitHub disaster recovery and AWS account backup workflows using AWS Control Tower Landing Zone.
- Enforced account-level tagging across 100+ AWS accounts through Terraform IaC.
- Led production Terraform module migrations and Red Hat OpenShift machine-pool upgrades.

Junior DevOps Engineer

2022 - 2025

- Migrated CodeCommit, CodePipeline, and manual infrastructure to GitHub + Terraform IaC, standardizing multi-cloud production environments across AWS, GCP, Cloudflare, and GitHub.
- Built GitHub Actions and GitLab CI pipelines; provisioned self-hosted AWS Fargate runners, cutting CI costs 90% and automating database, WAF, and state-lock operations.
- Implemented blue/green ECS Fargate deployments with CloudFormation, CodePipeline, and CodeDeploy, including a rapid hotfix path.
- Hardened access with Microsoft Entra SSO, RBAC, GitHub secret scoping, temporary credentials, and Firebase Auth custom roles.
- Built Bash/Python monitoring, Slack/PagerDuty alerting, and Datadog observability across EC2 and ECS Fargate, improving incident detection by 50%.
- Secured CloudFront and AWS WAF, configured multi-region RDS and Cognito backups, and cut infrastructure costs 70% through EC2 rightsizing.
- Managed and tuned OpenSearch clusters for production search workloads.

Trainee DevOps Engineer

2021 - 2022

- Developed and deployed Dockerized Flask and TypeScript/Express apps across AWS Lambda, ECS Fargate, and EC2, including MongoDB-backed backends for two e-commerce platforms.

Co-Founder & CTO

Mar 2024 - Present

Parhlai
