TECHNICAL SKILLS

Languages: Python, TypeScript/Javascript, Bash

Product & AI: PostHog, Ahrefs, SEO, GTM Strategy, User Analytics, Mixpanel

Libraries & Tools: ExpressJS, Flask, React, Selenium, Postman, Git, Jira/Confluence/Linear

DevOps & IaC: GitHub Actions, Datadog, AWS, Cloudflare, Docker, Terraform, Ansible, Vagrant

EXPERIENCE

AI Product Manager

December 2025 - June 2026

Imagine.art / Vyro.ai

Islamabad, On Site

- Led OmniAgent from architecture to launch as ChatlyAI's AI core, reaching 5k DAUs and 15k+ organic generations from zero.
- Contributed production PRs alongside the engineering team while shipping AI product features.
- Built and launched Chatly's AI Chrome extension in 2 weeks, acquiring 2k+ organic users with zero paid acquisition.
- Owned AI Slides from research through launch in 1 month, reaching 10k+ users through rapid iteration and user-focused design.
- Scaled the broader product from 200k to 1.2M+ MAUs and 10M+ sign-ups through roadmap prioritization and growth experiments.
- Supported growth toward \$6.5M in revenue through pricing, funnel, and Stripe billing improvements.
- Scaled the product org from 5 to 35+ members and led a 10-engineer cross-functional team; automated hours-long workflows to minutes.
- Improved AI image-generation quality ratings by 50% through prompt engineering, model tuning, and iterative testing.

Co-Founder & CTO

Mar 2024 - Present

Parhlai

Islamabad / Remote

- Grew Parhlai to 8k+ registered users and 5k+ MAU while leading a 4-engineer team.
- Secured 1M PKR in funding and generated 500k+ PKR in combined consumer and B2B booked revenue.
- Owned product strategy and AI-first execution, using PostHog analytics to prioritize roadmap and retention work.
- Drove all-organic acquisition through SEO, Reddit, and referrals, reaching 4.5M+ Google Search impressions and 162k+ clicks; ranked key features #1 within 2 weeks.
- Supported 15k+ quizzes, 1.8M+ MCQs, and a 127k+ question bank.
- Architected a serverless AWS/Cloudflare backend and asynchronous MCQ pipeline with Terraform, OCR, YOLOv12, Pinecone, Groq/Gemini, and multi-agent validation; kept infrastructure under 1% of total spend.

Backend and DevOps Engineer

June 2021 - December 2025

Syslify

UK, Remote

- Developed and deployed Dockerized Flask and TypeScript/Express apps across AWS Lambda, ECS Fargate, and EC2, including MongoDB-backed backends for two e-commerce platforms.
- Migrated CodeCommit, CodePipeline, and manual infrastructure to GitHub + Terraform IaC, standardizing multi-cloud production environments across AWS, GCP, Cloudflare, and GitHub.
- Built CI/CD pipelines on GitHub Actions and GitLab CI with Docker layer caching; provisioned self-hosted AWS Fargate runners, cutting costs 90% and automating DB, WAF, and state-lock operations.
- Implemented blue/green deployments on ECS Fargate via CloudFormation, CodePipeline, and CodeDeploy, with a hotfix path for rapid production fixes.
- Hardened access controls with Microsoft Entra SSO, RBAC, GitHub secret scoping, temporary pipeline credentials, and Firebase Auth custom roles.
- Built observability with Bash/Python monitoring, Slack/PagerDuty alerts, and Datadog on EC2 and ECS Fargate, improving incident detection by 50%.
- Configured CloudFront + AWS WAF and automated WAF/DNS updates through Terraform and GitHub Actions; built multi-region RDS and Cognito backups for disaster recovery.
- Deployed React sites via CloudFront + S3 and Cloudflare Pages; raised AWS Security Hub from 60% to 80% and cut infrastructure costs 70% via EC2 rightsizing.
- Managed and tuned OpenSearch clusters for production search workloads.

Associate Software Engineer

Nov 2023 - Sept 2024

Vfairs

Lahore, Remote

- Configured and executed load tests simulating up to 10,000 concurrent users to ensure system stability.
- Developed and optimized 40+ job scrapers, increasing data acquisition by 50%.

EDUCATION

National University of Science and Technology

Islamabad, Pakistan

Bachelor of Science in Computer Science
